

# APL Credit

Offering Flexible Technology Financing  
and Leasing for Every Industry

APL Credit provides tailored financial solutions that help businesses across all industries access the technology and resources they need to grow. Backed by over 25 years of experience, we offer secure, scalable financing to empower organizations to invest in innovation without compromising financial stability.

## Who We Are

APL Credit consists of an experienced team of financial experts, leasing specialists, and industry professionals who deliver valuable guidance and customized solutions to support your long-term success.

## What We Do

By integrating financial and technology services into a seamless, end-to-end solution, APL Credit will help you upgrade, scale, and align investments with your business goals for lasting impact.

## Financial Services

Ranging from equipment leasing and subscriptions to rentals and flexible contracts, our comprehensive financial services are designed around your business needs. Scalable solutions like hardware as a service (HaaS) and hardware rentals provide efficient, cost-effective access to the tools that drive sustainable growth.

## Technology Buyback

Our technology buyback program turns unused equipment into reinvestment opportunities — recovering value, reducing environmental impact, and improving tech resource efficiency.

## APL Logistics Services

We pair financing with full-service logistics for reconditioned technology — offering reliable, warranted devices like laptops and body cameras with streamlined delivery, support, and flexible purchase or lease options.

## Connectivity Solutions

APL Credit provides integrated connectivity solutions — like wireless infrastructure and data plans — designed to keep your team securely connected to vital systems for faster, smarter decision-making.

## Project Management Services

We manage procurement through installation and integration, simplifying the process to minimize disruptions, meet deadlines, and ensure smooth, successful technology rollouts.

## Deployment and Installation Services

Our team delivers expert technology and vehicle installation services for government and commercial fleets — on-site or at fleetTEC's headquarters in Braselton, Georgia — so every vehicle is equipped, integrated, and ready for the road.

## IT Services

APL Credit provides end-to-end IT services — from consulting and staffing to managed solutions — designed to boost performance, control costs, and minimize risk, all backed by ongoing support to keep your organization running strong.

# Why Choose APL Credit?

Partnering with APL Credit means gaining a trusted advisor with decades of experience, offering flexible, innovative financing solutions tailored to your goals — and a commitment to driving your success.

## Fast Application Process

Leveraging the latest technology, APL Credit accelerates approvals.

## Comprehensive Lender

As a versatile funder, APL Credit offers financing options for a wide range of credit profiles, from A to C credits.

## In-Depth Credit Reviews

Each deal is carefully reviewed by an experienced credit analyst to fully understand the customer's situation.

## Direct Communication

Unlike other funders, our staff is available to provide clear and direct answers to your questions.

## Experience the Difference

Ready to fuel your growth with smart, flexible financing? Connect with APL Credit to explore customized solutions and discover how our expanding network of partners can support your broader business goals.
